

# QD SERIES TOWER DUPLICATORS

## QD Series • Entry-Level Economy CD/DVD Duplicators

Looking for an affordable option to bring disc burning in house? Whether you're looking for a 1-to-1 duplicator for making just a couple discs or need a high-volume solution for a service bureau producing hundreds of discs a day, the Microboards QD Series duplicators are configured for your throughput requirements. Available in 1, 3, 5, 7, or 10 recorder configurations, there's a QD series tower that will fit your needs.

Stream through your production with blistering fast 48X CD-R / 22X DVD-R/+R recorders and an easy-to-use four-button interface. The QD towers make disc duplication an easy task, even if you're not a computer wizard. The QD Series is now equipped with an on-board 250GB hard drive, allowing the ability to easily drag-and-drop files to record from your PC using a USB 2.0 cable. The HDD stores your disc images for quick retrieval on the fly.

Microboards towers are backed by the industry's leading tech support and warranties, ensuring you'll always have a top-notch tower duplicator when you need it most. Whether you're a garage band selling CDs at your concerts, a sports team reviewing video of the latest game, or a wedding videographer producing copy-protected content to clients, the QD Series is your definitive answer.
